

WOOLYX

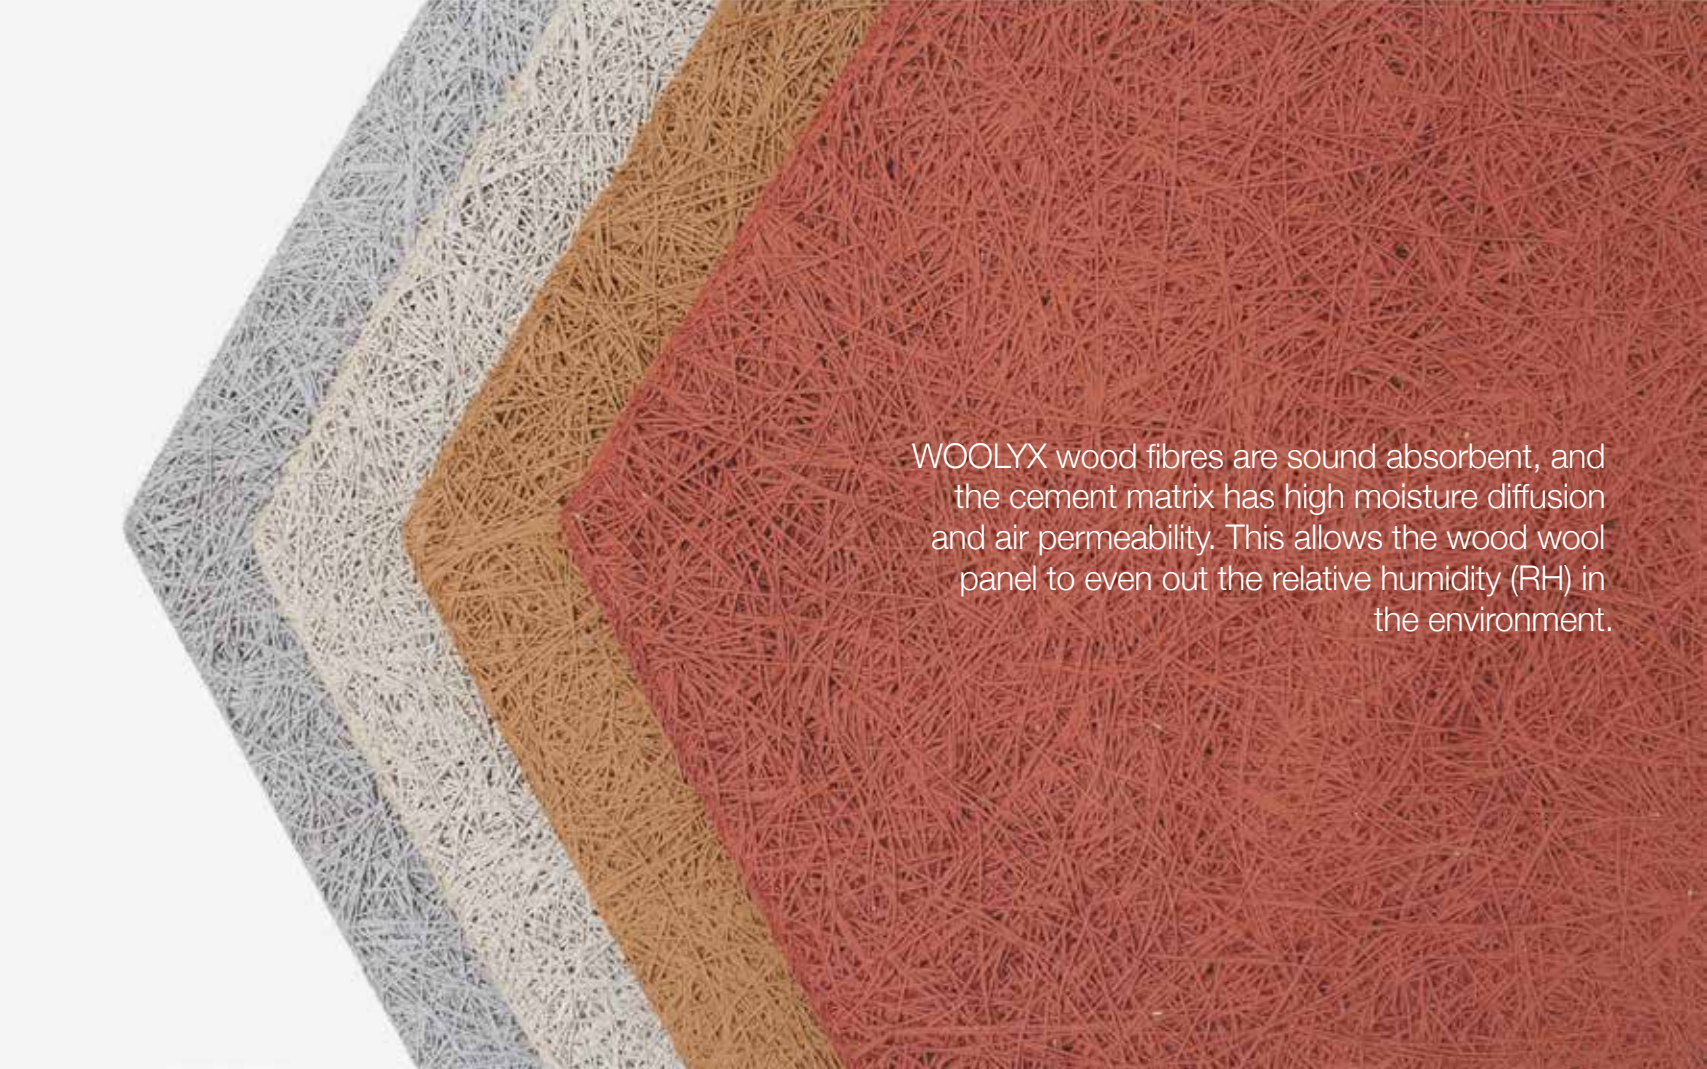

Specifications:

1. Material: Recyclable wood fibres in cement matrix
2. Standard Dimension: 300 x 300mm, 600 x 600mm
3. Standard Thickness: 25mm, 50mm
4. Eco-Friendly Test: EN 13986, E1
5. Fire-Rated Test: ASTM E84-12a Class A, DIN EN 13501 B-s1,d0

WOOLYX wood wool panels are made from recyclable wood fibres, cement, and water. It is environmentally friendly and formaldehyde free. The wood wool panels absorb sounds and gives aesthetics and environmental friendliness in an acoustic environment.

WOOLYX wood fibres are sound absorbent, and the cement matrix has high moisture diffusion and air permeability. This allows the wood wool panel to even out the relative humidity (RH) in the environment.
